Docket No.: DAY 0807 VA/40195.817

**Amendment to the Specification**

Please replace paragraph [0036] with the following replacement paragraph

[0036] Sound dampening pad 10 thus substantially reduces the vibrations and accompanying noise associated with the mounting and dismounting of blanket sleeve 20. Because the pad produces a snug snuff-fit on both surfaces and the end edge of sleeve base 40, vibrations, and the sound resulting therefrom, are substantially reduced.
